Will Address Concert Group Dinner Meeting

Miss Beatrice Patterson, of the Columbia Concerts, Inc., will address the Gettysburg Concert association's dinner-meeting of the membership campaign workers at the Hotel Gettysburg Friday evening at 6:30 o'clock, it was announced today.

Miss Patterson will come to Gettysburg to explain the new war-time streamlining program of the concert association on the eve of the week's drive to enroll 600 members for the three concerts to be presented in Brua Chapel this winter.

The local concert association is resuming its concert series this year after a year's absence. Resumption of the series was decided upon after numerous re-

quests from music lovers. Mrs. F. K. Schwartz is chairman of the membership drive.

London, Oct. 2 (AP)—The U. S. First Army launched a big push toward the Rhine from its positions penetrating

the Siegiried line in the Aachen area today. Ending a stalemate of almost two weeks, in which German counterattacks were beaten off while the mighty punch was prepared. Lt. Gen. Courtney H. Hodges' warriors began one of the greatest combined air and land assaults of the European campaign against the entrenched enemy.

The attack was preceded by a heavily concentrated artiilery barrage and by a thunderous drumbeat of thudding bombs from hundreds of medium and fighter bombers.

Racing out of gray cloudy skies at about 9 a. m., the planes dropped hundreds of tons of explosives on Nazi pillboxes and gunposts while in scores of nearby French, Belgian and Netherlands villages the people watched the silverwinged armada unloading its bombs on Adolf Hitler's west

TO AMERICAN WOMEN ASKING-

"Will Defeat of Germany Lessen the Need for Saving Used Fats?"

-THE GOVERNMENT ANSWERS "NO!"

ONTHE contrary, Mrs. America, the need for saving used cooking fats will be as great or greater than ever.

Victory over Germany still leaves the Japs in possession of the Dutch East Indies, the Philippines and Malaya - countries from which we formerly imported about one billion pounds of fats and oils each year.

Even victory over Japan will not ease the situation immediately. Not for a year or more can these areas be brought back to pre-war production

In the meantime, the need for your

used fats will be as acute as ever for these reasons: I Even after European victory, we still have Japan to beat. Vast supplies of ammunition, mediines, parachutes, rubber boats, soaps and other battlefield essentials must keep on going to our

fats to make. 2 We must help in the rehabilitation of liberated countries, such as Greece, Norway and the Netherlands, with medicines, machinery, etc.

fighting men in a steady stream. These all require

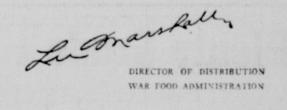

3 Many factories now producing for war will turn to manufacturing the civilian goods we need so urgently. These factories will consume vast quantities of industrial fats.

American farmers are doing everything possible to build up domestic production of fats and oils. But during the next 12 months, because of a smaller hog kill and reduced yields of some oil-seed crops, we expect that approximately a billion-and-a-third pounds less of fats will be produced.

Need Greater Than Ever

Therefore, more than ever, salvaging used cooking fats is an important resource on which the country must continue to lean in order to tide us

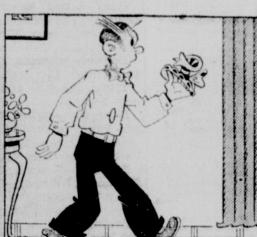

Saving used fats is not a glamorous task. It takes effort. But it is one that only you, the American housewife, can perform for the country. We ask you to continue the wonderful job you are doing to help speed final Victory.

For every pound of used fat, your butcher will give you 4¢ and two free red points! Keep on saving every drop.
